

Compliance with the Lacey Act

The Lacey Act combats trafficking in “illegal” wildlife, fish, and plants. The 2008 Farm Bill (the Food, Conservation, and Energy Act of 2008), effective May 22, 2008, amended the Lacey Act by expanding its protection to a broader range of plants and plant products. The Lacey Act now, among other things, makes it unlawful to import certain plants and plant products without an import declaration.

Eagon USA Corp., is in compliance with the Lacey Act.

For more information on the Lacey Act, please visit the US Department of Agriculture and Plant Health Inspection Service :
